

Differential inalienable marking in linguistic Wallacea

Laura Arnold

12th Austronesian and Papuan
Languages and Linguistics Conference

18 June 2020

Differential inalienable marking in linguistic Wallacea

1. The expression of possession
 - ‘Alienability’
 - Differential inalienable marking (DIM)
2. DIM in Wallacea: A survey
3. The distribution and development of DIM
 - DIM in Timor-Alor-Pantar
 - DIM around the Bird’s Head
 - A possible origin for DIM?
4. Conclusions

Differential inalienable marking in linguistic Wallacea

1. The expression of possession
 - ‘Alienability’
 - Differential inalienable marking (DIM)
2. DIM in Wallacea: A survey
3. The distribution and development of DIM
 - DIM in Timor-Alor-Pantar
 - DIM around the Bird’s Head
 - A possible origin for DIM?
4. Conclusions

We need to talk about ‘alienability’

- ▶ Karvovskaya (2018; building on Nichols 1988):
 - ▶ Differential morphosyntactic marking
 - ▶ Obligatory possessive marking
 - ▶ Semantic class of nouns
 - ▶ Semantic relationship between PossD and PossR
 - ▶ Permanence, inherence, inseparability, control...
- ▶ I will be using ‘alienability’ to refer **only** to the formal expression of possession

Differential possessive marking

Possessive NPs

	Construction 1	Construction 2
Semantics	+/- <i>Body parts</i> +/- <i>Kin terms</i> +/- <i>Part/whole</i> <i>etc</i>	<i>Else</i>
Morphosyntax	Direct	Indirect
Ambai (SHWNG; Silzer 1983)	awe-ku head-1SG	ne-ku wá POSS-1SG canoe

Differential possessive marking

Possessive NPs

	Construction 1	Construction 2
Semantics	+/- <i>Body parts</i> +/- <i>Kin terms</i> +/- <i>Part/whole</i> <i>etc</i>	<i>Else</i>
Morphosyntax	Juxtaposition	Poss linker
Abun (isolate; Berry & Berry 1999)	ji syim 1SG arm	ji bi nggwe 1SG poss garden

Obligatory possessive marking

(1) Taba (AN > SHWNG; Bowden 2001: 233-4)

“A differentiation between alienable and inalienable possessive categories **is not obligatorily marked by the use of different forms** in Taba... However, some of what could perhaps be called the most ‘inalienable’ kinds of possessive relationships (e.g. expressions referring to part-whole relationships) are distinguished in Taba by **obligatory possessive marking**.”

a. komo ni myao
hand 3SG.POSS digit

‘finger’

b. Banda ni wog
Banda 3SG.POSS canoe

‘Banda’s canoe’

Obligatory possessive marking \neq differential marking

	Obligatory – possessive marking	Obligatory + possessive marking
Differential – morphosyntactic marking	Malay varieties	Taba
Differential + morphosyntactic marking	Toqabaqita	Kui

We need to talk about ‘alienability’

- ▶ Karvovskaya (2018; building on Nichols 1988):
 - ▶ Differential morphosyntactic marking
 - ▶ Obligatory possessive marking
 - ▶ Semantic class of nouns
 - ▶ Semantic relationship between PossD and PossR
 - ▶ Permanence, inherence, inseparability, control...

Differential inalienable marking (DIM): A definition

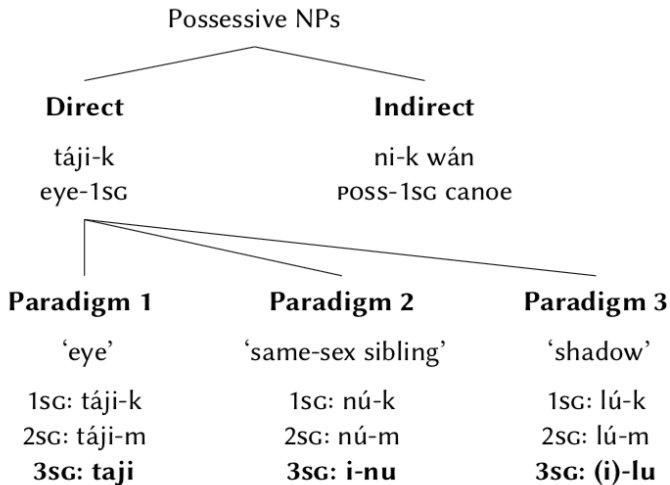

► Either:

1. In languages with a basic two-way structural split in the formal marking of adnominal possession, there are two or more possessive-marking paradigms in the construction which is primarily restricted to expressing semantically inalienable relationships.

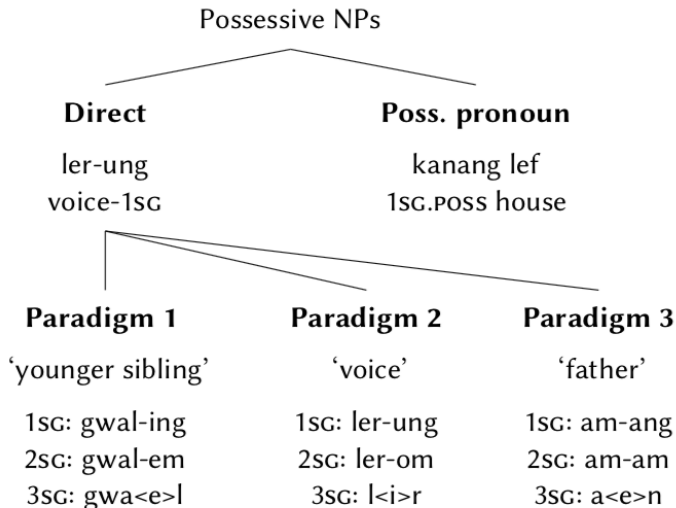

► Or:

2. In languages which have no structural split, but which have three or more possessive-marking paradigms, at least two of the paradigms are primarily restricted to expressing semantically inalienable relationships.

Examples: Ambel (SHWNG; Arnold 2018b)

Examples: Batuley (CMP; Daigle 2015)

Differential inalienable marking (DIM): A definition

► Either:

1. In languages with a basic two-way structural split in the formal marking of adnominal possession, there are two or more possessive-marking paradigms in the construction which is primarily restricted to expressing semantically inalienable relationships.

► Or:

2. In languages which have no structural split, but which have three or more possessive-marking paradigms, at least two of the paradigms are primarily restricted to expressing semantically inalienable relationships.

Examples: Kula (TAP; Williams 2017)

	Inalienable <i>Prefixes</i>		Alienable <i>Prefixes</i>
	‘finger’, ‘foot’, ‘foot (sore)’	Body parts, kin	Else
1EX	nge-	ng-	ngá-
1IN	ige-	i-	igá-
2	ye-	ya-	yi-
3	ge-	a-	gi-

Examples: Kula (TAP; Williams 2017)

Differential inalienable marking (DIM): A definition

DIM around the Bird's Head

DIM around the Bird's Head

- ▶ Hatam-Mansim (PAP)
 - ▶ Hatam
- ▶ East Bird's Head (PAP)
 - ▶ Meyah
 - ▶ Moskona
- ▶ SHWNG (AN)
 - ▶ RASH
 - ▶ Ambel
 - ▶ (Biga, Butlih...)
 - ▶ Biakic
 - ▶ Biak
 - ▶ Roon?
 - ▶ Yapen
 - ▶ Ambai
 - ▶ Wamesa
 - ▶ Wooi
- ▶ CMP (AN)
 - ▶ Irarutu

DIM around the Bird's Head

- ▶ Ambel (AN > SHWNG > RASH; Arnold 2018b)

	Kin terms	Body parts	Association
1SG	-k	-k	-k
2SG	-m	-m	-m
3SG	i-	Ø	(i-)

DIM around the Bird's Head

- ▶ Ambai (AN > SHWNG > CB > Yapen; Silzer 1983)

	Kin terms	Body parts
1SG	-ku	-ku
2SG	-mu	-mu
3SG	-na	-n

- ▶ Biak (AN > SHWNG > CB > Biakic; van den Heuvel 2006)

	Kin terms	Body parts (paired, 'tooth', 'nose')	Body parts (else)
1SG	=i	-si	-ri
2SG	-m=i	-m-si	-m-ri
3SG	-r=i	-si	-ri

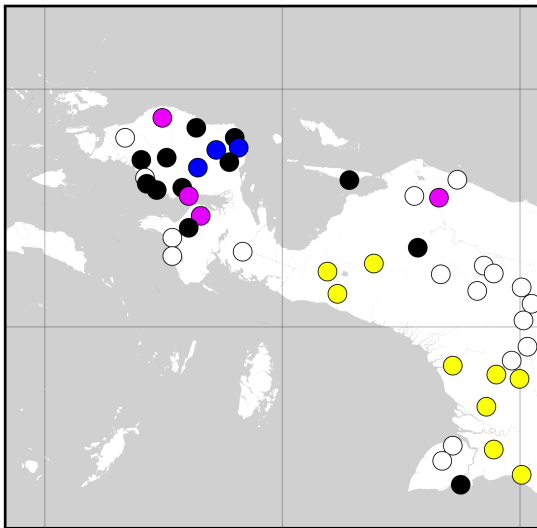

A possible origin for DIM?

- ▶ DIM was an innovation in proto-Meax
- ▶ The 'kin' paradigms of Meyah and Moskona are more archaic → only **kin terms** possessed in inalienable constructions in proto-Meax (/proto-EBH?)

A possible origin for DIM?

A possible origin for DIM?

- ▶ Oral history: Homelands of Meyah, Moskona, Sougb, Hatam were on the south coast of the BH, between Bintuni and Merdei (Reesink 2002; Gravelle 2004, 2010; Haenan 1998)
 - ▶ Speculation: Could the homeland of proto-EBH have been even further south?
- ▶ DIM developed when the EBH languages, previously only possessing **kin terms** in inalienable constructions, came into contact with the languages of the BH which only possessed **body parts** in inalienable constructions

A possible origin for DIM?

- ▶ Following this, DIM > AN via multiple borrowing events
 - ▶ Intermarriage, slaving and trade networks (*kain timor*, bird of paradise plumes, massoy bark – Swadling 2019; Reesink 2002; Biak migration patterns; RA oral history)
- ▶ Linguistic correlates:
 - ▶ Tone (PAP > AN; Kamholz 2014, 2017; Arnold 2018a)
 - ▶ DO/GIVE coexpression (PAP > AN; Gil 2017)
 - ▶ Base-five numeral systems (PAP > AN; Gasser 2017)
 - ▶ *ve-* verbaliser (AN > PAP; Gil 2017)

Differential inalienable marking in linguistic Wallacea

1. The expression of possession
 ‘Alienability’
 Differential inalienable marking (DIM)
2. DIM in Wallacea: A survey
3. The distribution and development of DIM
 DIM in Timor-Alor-Pantar
 DIM around the Bird’s Head
 A possible origin for DIM?
4. Conclusions

Conclusions

- ▶ DIM is an additional areal feature of Wallacea
 - ▶ Clusters genetically in TAP – reconstructable to proto-TAP?
 - ▶ Clusters areally around the BH
- ▶ Possible origin: developed in EBH
 - ▶ Then > AN
- ▶ Take-home message for fieldworkers:
 - ▶ Differential inalienable marking is often very subtle!
